Welcome to Axis Cleaning and
Support Services

A nationwide cleaning, property
maintenance and supplies business.

Making Waves

Axis Cleaning and Support Services is a market leader within the cleaning and support services industry. With an established portfolio of over 1,000 customer locations, over 2,500 employees, and a national network of local offices, we can guarantee a professional, high quality standard of service that is second to none.

Our Accreditations

As a firmly established ISO 9001/14001 accredited provider, Axis leads the market in terms of quality, innovation and experience.

Our Services

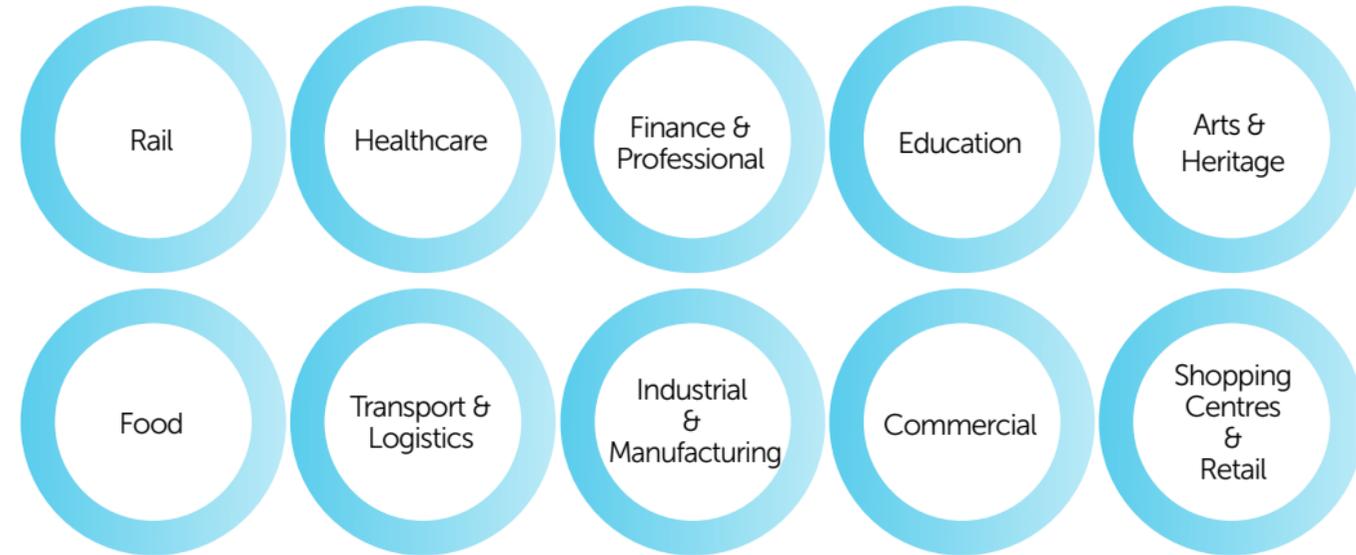

Axis delivers cleaning and support service solutions that integrate seamlessly with your business requirements. Our national service infrastructure and bespoke service-level agreements ensure sustainable commercial growth and positive relationships.

Our Sectors

We have a dedicated, experienced team of people with in-depth sector knowledge. We strive to understand your needs, working with you to achieve results and exceed your expectations.

Our Core Values

Professionalism

We take pride in our work and conduct, and provide ongoing employee training to ensure quality.

Teamwork

We encourage everyone to work together, celebrate success and build and nurture long-lasting relationships.

Honesty & Integrity

We are open, flexible, and transparent in everything we do.

Innovation

We are responsive to your changing needs and embrace new ways of working.

Reliability

We deliver a first class service, winning your trust and bringing you happiness.

Passion

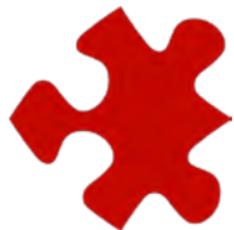

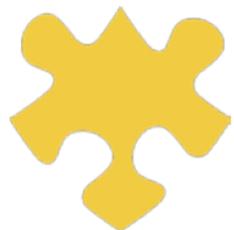

We conduct our operations ethically and with a true passion for our business, our employees and our wider community.

A Fresh Approach

Our People Strategy

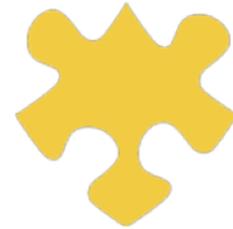

Axis' vision is to be the first choice in a cleaning services business in the country. As a service provider, Axis will only achieve this ambition through our people. Our aim is to have the right people with the right skills, in the right place, at the right time.

Our People Strategy sets out the key objectives that will ensure that we remain a good and fair employer.

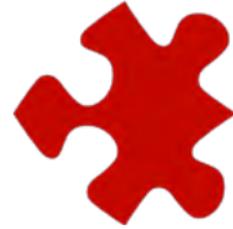

Respect

Be open, honest and respectful in all our dealings with our employees.

One Team

Promote a 'one team' approach and modern ways of working.

Customer Focused

Create a customer focused culture based on pride and personal responsibility.

Safe & Supportive

Create safe and supportive work environments that encourage development and learning.

Keeping it Clean

Environmental Responsibility

At Axis, we strive to reduce the negative impact that our operations have on our surrounding environment. We encourage sustainable working practices and involvement in our communities wherever possible.

Axis understands the relevance of environmental and sustainable issues within the cleaning industry, and continually seek to introduce a number of innovations relating to environmental and sustainability considerations.

With the use of our range of super concentrated chemicals that allows us to add water at site, we can avoid the disposal of thousands of plastic bottles.

Where feasible, we restrict the use of bin liners. Our refuse sacks are 97% recycled polythene which is UK derived with 30% of this being a post-consumer recycled product.

Dry mixed recycling is available to you through our waste/recycling partners which also promotes removing general waste bins from desk locations and replacing with centralised bulk bins.

As part of our ongoing commitment to reducing our carbon footprint, we propose a 'lights off' strategy, with lights being turned off after our operatives have completed their required tasks.

We undertake product life cycle assessments to establish the environmental impact on any given product and service. Consideration is given to raw materials, manufacturing and disposal, including transport.

Flowing Together

About Axis Group

Axis Cleaning and Support Services is a wholly owned subsidiary of the Axis Group of companies. Other group companies deliver a range of high quality services.

Axis Group can provide an integrated solution should you wish to pursue a joint services approach.
